

The **CYCLO Foam Cannon** minimizes the amount of hands on contact which can minimize wash induced swirls.

The **CYCLO Foam Cannon** is a blast!
You have never seen a foam gun like this!!

The **CYCLO Foam Cannon** is capable of such high volume of foam, a vehicle can be completely whited out.

The foam clings to the vehicle panels and provides the lubrication you need for a safer car wash.

The foam provides a pre-soak that loosens dirt & grime making hand washing easier.

The **CYCLO Foam Cannon** works with a pressure washer. The velocity of the water combined with our **CYCLO Snow Foam Car Shampoo** will generate amazing suds. This wash process actually uses less water at a higher pressure, so its eco-friendly too.

The **CYCLO Foam Cannon** is made of brass for maximum durability with a 1 litre fluid tank for the special **CYCLO Snow Foam Shampoo**.

A vertical jet nozzle is included so you can apply foam or rinse in a sweeping side to side motion. This nozzle allows you to work around and then down the vehicle, which is the recommended way to wash a vehicle.

For the best results, use only **CYCLO Snow Foam** in your **CYCLO Foam Cannon**. This shampoo was developed specifically for foam guns and produces an incredible amount of foam.

Pour the shampoo into the **CYCLO Foam Cannon**, hook it up to your pressure washer and let the foam fly!

distribution agent

A vertical jet nozzle is included so you can apply foam rinse in a sweeping side to side motion

The foam provides a pre-soak that loosens dirt & grime so hand washing is easier.

The **CYCLO Foam Cannon** is rated for 19 litres per minute for a high powered cleaning. Each litre of Snow foam will foam an average of 20+ vehicles, giving you a cost of less than R1.00 per vehicle!!

The **CYCLO Foam Cannon** is excellent for fast-paced cleaning in a detail shop or mobile detailing service. It cuts down on the amount of manual washing needed, and it puts on quite a show!

To maintain your **CYCLO Foam Cannon**, rinse it out after every use. Six fittings are available for virtually any pressure washer.

A brass male nipple is included to connect the fitting to the **CYCLO Foam Cannon**. Be sure to specify the exact model of pressure washer you have that you would like the **CYCLO Foam Cannon** to connect with.
